

A photograph of a woman with reddish-brown hair, seen from the chest up in profile, looking towards a large, light-brown teddy bear. They are in a bathtub, with a grey shower riser between them. The woman has a slight smile. The teddy bear is very large, filling the right side of the frame. The background shows the wooden structure of the bathtub.

# BEAR NECESSITIES

A social media campaign was recently started in Holland to have people put stuffed bears in their windows so that the little children could hunt for them while their schools were closed due to the corona pandemic. Focusing children's attention on window-bear hunting was a fantastic initiative at a time when every effort to show some compassion helps.

I went bear hunting near our house in March 2020 and this series presents what I was able to capture. Normally our neighbors aren't fond of someone pointing a camera into their living rooms, but in this instance, some of the neighbors would come out and point out their bears to me, just to make sure that they weren't missed.
